DETAILED ACTION

This Office action is in response to the amendment filed January 23, 2004 in which claims 1, 2, 4, 7, 9, 10, 14, 15, 24-27 and 29-31 were amended and claims 3 and 32-34 were canceled.

The rejection of the claims under 35 USC 102(a) is withdrawn in view of Applicant canceling the claims.

The previous rejection of the claims under 35 USC 112, second paragraph is withdrawn, with the exception of claims 9-12, 23 and 28.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-12, 23 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 is rejected because there is no antecedent support in claim 1 for the compound of formula VI.

Claim 10 is rejected because there is no support in claim 1 for the compound of formula VII.

Claim 11 is rejected because there is no support in claim 1 for the compound of Formula VII.

Claim 12 is rejected because there is not support in claim 1 for Formula IX.

Applicant argues that these claims are independent claims. Applicant argues that these claims rely upon claim 1 only for the definition of T, Z, R₁ to R₇ and X and that these definitions were not included the claims in question in order to save space and to make the claim easier to read.

A claim is a dependent claim if it refers back to another claim for completeness. Therefore, claims 9-12 are not independent claims.

Claim 23 and 28 are rejected because B is not defined.

Applicant argues that β is the Greek symbol for "beta" and that this is a common chemical naming nomenclature. The examiner agrees. However, in the claims in question an uppercase b is present and not the Greek symbol β .

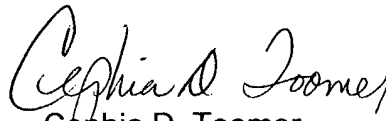

Claims 1, 2, 4-8, 13-22, 24-27 and 29-31 are allowable because the prior art of record fails to teach or suggest the claimed triazine-containing compounds, compositions containing said compounds and method of using said compounds.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cephia D. Toomer whose telephone number is 571-272-1126. The examiner can normally be reached on Monday-Thursday.
